COUNTY ORDINANCE FILE, REGULATION AND RESOLUTION INDEX

The attached index implements the first phase of a new service of the Institute of Government to county attorneys. Ordinances deposited by cooperating counties are kept on file at the Institute's Library and indexed by subject area. These are then made available along with models drafted on request to those who request them.

I would appreciate any suggestions for improving this service as well as copies of ordinances from additional counties.

Counties Responding to Date (3/4/75):

ALAMANCE	MECKLENBURG
ALLENGHANY	NASH
BEAUFORT	NEW HANOVER
BERTIE	ONSLOW
CLAY	PITT
FORSYTH	RUTHERFORD
MARTIN	WATAUGA

Ordinance numbers refer to an accession number assigned by the Institute's library and does not necessarily reflect the order in which a given county actually ordained a given ordinance. Bracketed information

on the number of pages is included to aid in the estimation of copying and postage costs. Please request copies of specific ordinances directly from the library by county and number.

No legal opinion is offered or implied with respect to the constitutionality or legality of any ordinance available through the service except those drafted by the faculty of the Institute of Government. Advice on specific matters is available through the Institute.
