Lenihan v. Shankar

Ontario Judgments

Ontario Superior Court of Justice

H.A. McGee J.

January 14, 2021.

Court File No.: FS-19-141

2021 ONSC 330

Applicant, and Indra Shankar, Respondent

Child access — Considerations — Best interests of child — Application by father for custody of parties' young daughter since birth — Father was a US citizen — Mother voluntarily separated prior to child's birth when father returned to Canada and father's access, made unfounded accusations against mother — Father could offer the child a stable, healthy environment and ability to place daughter's needs above her own desires.

Justice Heather McGee

Ontario Superior Court of Justice

H.A. McGEE J.

Overview

1 Text messages, emails and social media postings have become leading sources of evidence across a wide array of criminal, civil and family disputes. Judges have before them the actual words and deeds of the parties, written or posted in the party's own hand.

2 Or do they?

3 In an era of "fake news" it should come as no surprise that from time to time, courts will be presented with fake evidence. Accessible technologies have made it easier than ever to generate or alter phone calls, texts, emails, social media accounts, photographs and even experts' reports in a manner that disguises their origin and fakes, or "spoofs", their intended purpose.

Personal information that we collect automatically when you use our Services or register for an account with us

- We collect information about your interaction with our Services and your communications with us. This is information we receive from devices (including mobile devices) you use when you access our Services. This information can include the following: Device ID or unique identifier, device type, and unique device token.
- We may collect location information, including the precise location of your mobile device. Keep in mind that most mobile devices allow you at any time to control or disable the use of location services in your mobile device's settings menu.
- Computer and connection information such as statistics on your page views, traffic to and from the sites, referral URL, your IP address, your browsing history, and your web log information.

Data Mining

- ▶ Data mining is primarily used today by companies with a strong consumer focus - retail, financial, communication, and marketing organizations. It enables these companies to determine relationships among "internal" factors such as price, product positioning, or staff skills, and "external" factors such as economic indicators, competition, and customer demographics. And, it enables them to determine the impact on sales, customer satisfaction, and corporate profits. Finally, it enables them to "drill down" into summary information to view detail transactional data.

What exactly is Cyberstalking?

Engaging in a course of conduct to communicate—or to cause to be communicated— directly or indirectly- words, images, or language by or through the use of electronic mail or electronic communication, directed at or pertaining to a specific person;

To access, or attempt to access, the online accounts or Internet-connected home electronic systems of another person without that person's permission, causing substantial emotional distress to that person and serving no legitimate purpose.

NC CyberStalking 14-196.3

(b) It is unlawful for a person to:

(1) Use in electronic mail or electronic communication any words or language threatening to inflict bodily harm to any person or to that person's child, sibling, spouse, or dependent, or physical injury to the property of any person, or for the purpose of extorting money or other things of value from any person.

(2) Electronically mail or electronically communicate to another repeatedly, whether or not conversation ensues, for the purpose of abusing, annoying, threatening, terrifying, harassing, or embarrassing any person.

(3) Electronically mail or electronically communicate to another and to knowingly make any false statement concerning death, injury, illness, disfigurement, indecent conduct, or criminal conduct of the person electronically mailed or of any member of the person's family or household with the intent to abuse, annoy, threaten, terrify, harass, or embarrass.

(4) Knowingly permit an electronic communication device under the person's control to be used for any purpose prohibited by this section.

Federal 18 U.S.C. § 2261A(2)

(2)with the intent to kill, injure, harass, intimidate, or place under surveillance with intent to kill, injure, harass, or intimidate another person, uses the mail, any interactive computer service or electronic communication service or electronic communication system of interstate commerce, or any other facility of interstate or foreign commerce to engage in a course of conduct that—(A)places that person in reasonable fear of the death of or serious bodily injury to a person, a pet, a service animal, an emotional support animal, or a horse described in clause (i), (ii), (iii), or (iv) of paragraph (1)(A); or (B)causes, attempts to cause, or would be reasonably expected **to cause substantial emotional distress** to a person described in clause (i), (ii), or (iii) of paragraph (1)(A), shall be punished as provided in section 2261(b) or section 2261B, as the case may be.

Cyberstalking- Examples

Generally, the following acts may be prosecuted as cyberstalking:

- Sending frightening or unwanted messages to the other person,
- Constantly having unwanted gifts or items sent to the other person,
- Threatening harm against the individual or someone they're close to,
- Spreading rumors about the person online.

DA Cyberstalking Statistics

66% of female and **41% of male** stalking victims are stalked by a current or former intimate partner.

1 in 4 victims report being stalked through the use of some form of technology, such as email or instant messaging.

10% of victims report being monitored with GPS and **8% report** being monitored through video, digital cameras or listening devices.

Location Tracking

E911: WHY PHONES HAVE GPS

- **Enhanced 911 (E-911):** Designed to automatically provide home number and exact location of a 911 caller.
- **Wireless E-911:** Automatically sends cell number and cell phone location information.
- Some cell phones have a GPS chip in them (Sprint, Verizon, T-Mobile, etc.). Others have GPS locators at the cell tower (AT&T, Cingular).

Global Positioning Systems (GPS)

- Track person/object using satellite technology.
- Active vs. Passive

- Commonly found in:
 - Cell phones
 - Watches
 - Vehicle Navigation Systems
- Small and easily hidden.
- Affordable and readily available.

Alongside iPhone notifications when someone else's [AirTag](#) is with you, Apple has designed more ways to prevent malicious tracking — or theft.

When Apple unveiled its new AirTag tracking device, it also explained how iPhone users could detect when someone else is using one to track them. Apple then later outlined how people without iPhones could avoid being stalked using this technology, but now executives have revealed more.

I sincerely hope the judge is run over by a drunk-driving illegal. Better yet, raped, tortured and murdered by a MS-13 member. Better her than an innocent citizen.

Judge Esther Salas applauds new law named after her son, who was killed by a gunman targeting her

The Daniel A. Salas Judicial Security and Privacy Act aims to protect federal judges by safeguarding their personally identifiable information and that of their close relatives.

In July 2020, Salas and her husband were celebrating the 20th birthday of their son, Daniel, *when a man posing as a FedEx delivery driver came to the front door of their New Jersey home, rang the doorbell and fatally shot Daniel to death.* The man also shot Salas' husband three times. Salas was in the basement during the attack and was not injured.

“Scroll for the lyrics!” reads the first slide in the TikTok, a slideshow set to EDM music. The second slide doesn’t show lyrics, though: It flashes the face of Supreme Court Justice Samuel Alito, along with his supposed credit card information. The next slide is a portrait of Justice Amy Coney Barrett, with another credit card number, expiration date, and security code listed.

The comments are filled with the message: “It worked!”

Gen Z Have Doxxed The Supreme Court Justices Who Overturned Roe V Wade

Their addresses are now all over the internet.

When the US Supreme Court overturned Roe v Wade and robbed 36 million women of their abortion rights on Friday, the world was understandably furious. ‘American women today have less freedom than their mothers,’ said Speaker of the House Nancy Pelosi.

‘Without the right of women and men to make decisions about our own bodies, there is no democracy,’ added Gloria Steinem. ‘Banning abortions does not stop the need. It just bans their safety.’

Doxing

What exactly is Doxing?

is the act of revealing identifying Personal Identifiable information (PII) about someone online, such as their real name, home address, workplace, phone, financial, and other personal information. That information is then circulated to the public — without the victim's permission.

Personal Identifiable Information (PII) is defined as: Any representation of information that permits the identity of an individual to whom the information applies to be reasonably inferred by either direct or indirect means.

Doxing- National Conversation

Is Doxing Illegal??

The answer is usually **no**: doxing tends not to be illegal, if the information exposed lies within the public domain, and it was obtained using legal methods. That said, depending on your jurisdiction, doxing may fall foul of laws designed to fight stalking, harassment, and threats.

Is Doxing Illegal- Federal Laws

18 U.S. Code § 2261A (2015) – Stalking

This law runs through the federal courts and was originally written to target stalking. But the wording allows it to apply to cyberstalking and doxing.

It allows charges to be filed against anyone:

- Intending to injure, intimidate, harass, surveil, or worse, uses a computer or electronic communication service or system to:
- Place another person in reasonable fear of death or serious bodily injury, or;
- Cause, attempt to cause, or would reasonably expect to cause substantial emotional distress to a person.

Check how easy it is to dox yourself

- Google yourself “John Smith” Florida
- Carry out a reverse image search.
- Audit your social media profiles, including privacy settings.
- Check to see if any of your email accounts were part of a major data breach by using a site such as [Haveibeenpwned.com](https://haveibeenpwned.com)

Monitor the Web for interesting new content

Google Alerts are email updates of the latest relevant Google results (web, news, etc.) based on your queries.

Enter a search query you wish to monitor. You will see a preview of the type of results you'll receive. Some handy uses of Google Alerts include:

- monitoring a developing news story
- keeping current on a competitor or industry
- getting the latest on a celebrity or event
- keeping tabs on your favorite sports teams

Get comfortable with technology

- Be aware of new technology and how it is being used.
- Be comfortable talking with clients about new stalking tools and how they may impact their own devices.
- Safety plan with clients about their tech use. Share safety and privacy tips.
- Work with law enforcement, community members and policy makers to hold abusers accountable.
